Valued Customer:

How much time do you have to get ready?

Only about five minutes. I have so much to do every morning just to get out the door.	About ten minutes. Enough time to focus just on my best facial feature, like eyes or lips.	Fifteen minutes or more. Enough time to apply a complete look.
---	--	--

How much color makeup do you like to wear?

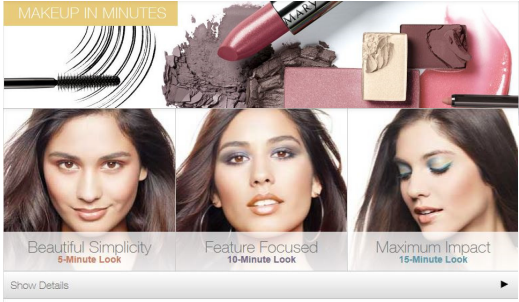

I like to wear light, natural-looking makeup.	I like to wear enough color to play up my favorite features.	I like to wear a complete look that lasts all day.
---	--	--

How do you want to look when you're finished?

Fresh and natural, like I'm not wearing much or any makeup.	Put together. Professional. Ready for the office.	Alluring. And color confident!
