

## Close Set Eyes

When eyes are less than one eye width apart, they're considered close set. You can bring out the alluring attributes of these eyes while making them appear farther apart by concentrating the more intense colors at the outer corners.

1. Highlighter shade: Apply to brow bone and lid. Apply the highlighter shade to the inside corners of the eye to help the eyes appear farther apart.
2. Midtone shade: Starting at the outer corner of the crease, bring the color toward the inside corner to the brow but not all the way over to the nose.
3. Accent shade: Sweep it across the base of the upper lashline and up into the outer area of the crease. Sweep it underneath the lower lashline for definition, except for the inside corners.
4. Eyeliner: Glide on upper lashline and along lower lashline from the mid-iris to slightly past the outer corner. Soften with the Eyeliner/Eyebrow Brush, if desired.
5. Mascara: Apply on upper and (if desired) lower lashes, adding an extra coat or two to the outer top lashes.
