

- 1- Have you ever tried Mary Kay before?
 - a. If YES: When was the last time?
 - b. What do you currently use for skin care?
- 2- Is there anything you want to change about your skin or learn about?
- 3- What is your current skin care routine?
(cleanser, moisturizer, foundation, etc)
- 4- What is your skin type?
- 5- What is your skin tone?

I just want to give you a quick overview of what to expect: We will be focusing on skin care as it doesn't matter what makeup tips I teach you, if you don't take great care of your skin, it won't make a difference!

Please be sure to arrive on time (and have your guests there on time) so that we can get the party started! I want to be respectful of your time and busy schedule, and it will help if everyone is ready to go on time!

Of course, no one is obligated to purchase anything, but I do keep product on hand. So if you find something that you love, you can take it home with you that day!
