

Look Ahead

**As I look Ahead I know what will be
All my dreams are directly ahead of me
I will climb higher and higher up the ladder
It is my time, it is my Hour**

**Consistency is the key for me
For I'm a booking machine
Reaching my goal one step at a time
Making success mine**

**Building to 100 strong
Finding all the women that belong
Women I want in my space
Life is such a short race**

**To offer this treasure is such a gift
I will continue to as long as I exist
Stepping out of my comfort zone
Knowing in my journey I'm not alone**

**This can change lives by any measure
If you continue to endeavor
Helping you build your teams
and women find their buried dreams**

**All While Crushing FEARS power
I'm Making me stronger and taller
This is MY journey only I need not compare
With a gift of heart I'm privileged to share**

**Don't waste time on petty things
Focus on all the wonderful blessings life brings
The green is not always greener on the other side
Many never fulfilled their dreams when they die**

**What is more important is BELIEF
That anything you want YOU can achieve
Don't let life just fleet on by
Take control of your life**

**As life throws curves and despair
it doesn't matter, prevail
My wish for you
Is that ALL your dreams come true**

**As I look ahead I believe what's in store for me
I'm a girl on fire driving FREE
I know that I am ENOUGH in so many ways
I LOVE MY MARY KAY**
