# It's the makeup must-have.

## MK Signature™ Facial Highlighting Pen

\$18

Keep in mind these are not concealers they are highlight pens. Their purpose is to disguise recessed areas of the face. You simply apply the highlighter inside any recessed area of the face (laugh lines, indentions under the eyes, etc.) and it will bring it forward, making it appear even with the rest of the face.

After you apply it along the recessed area with the attached brush, simply "stipple" (a patting motion with your finger) all along where you applied the highlighter.

With this pen, you are using "state of the art" light reflecting particles. Applying these particles simply make skin imperfections disappear.

# My Legs 2

Dear Mary Lou, Just wanted to send you a note letting you know how completely satisfied we are with the Mary Kay product that you recommended for Ty. His skin looks wonderful and it's all thanks to Mary Kay. Ty's skin started to have problems about this time last year. Clint, my husband, told us to go out and get some Mary Kay because it was the only thing that worked on his acne problem as a teenager. I was skeptical and decided to try the Proactive treatment that I'd heard so much about on TV and the radio. It did nothing to help Ty's complexion. Clint reminded me that I needed to try Mary Kay and I thought, "Oh, it can't be that simple." So I took Ty to a dermatologist and she put him on all kinds of oral medications and topical creams and treatments. His acne only got worse and more aggravated. She changed up his prescriptions and still there was no improvement. He was starting to develop scars and I was out hundreds of dollars with no improvement. Finally, Clint went himself and got the Mary Kay Velocity product from you and we had him stop all other drugs and treatments. Within weeks his skin made a total turn around and now looks so much better, as the pictures testify. I am a skeptic no more and only wish I'd listened to my husband sooner!!! I would have saved a ton of money and Ty wouldn't have had to suffer with his acne for all of those months! ! Mary Kay is a life saver! ~Santee Hurley, Baneberry TN (May 2006)

March 31, 2007

This eye began **Firming Eye Cream** in January 2007, but has had no **Line Reducer**. Each product has its benefits, but together, they are amazing!

Hello, all you Devoted Mary Kayers!

Let me introduce myself. I am the lucky new hubby of Independent Senior Sales Director, Donna Bayes-Scott.

I asked Donna if I could share something with you. I have always considered myself a “macho” man and anything “girly” was definitely a no-no for me.

Donna asked if I would help her with a little experiment using her new wrinkle cream and I agreed. (I basically agree to anything Donna says and that keeps me out of trouble!)

I applied the new cream to the area around my right eye only. In just a few days, I was amazed! I could actually see a tremendous improvement in the number of and depth of the wrinkles around that eye. After two weeks of faithful treatment, I am truly sold on this new product. I have always been a skeptic about advertisements and manufacturer’s promises, but Mary Kay has really developed a great product and I wanted to share my testimonial with each of you.

Also, I would like to share another story which reveals the quality of the new sunscreen products. My son and daughter-in-law just went on a cruise to the Caribbean and on the first day aboard, they decided to lay out, just for a few minutes early in the morning. They did not use any sunscreen. The result was a painful sunburn. Donna had sent them some of the new sun products and they applied the After Sun Replenishing Gel. They were very impressed with the quick and lasting relief they got from this product. Also, they commented on how nice it felt when applied and that it was not “greasy” as with many other brand products. Overall, they were amazed and were anxious to tell Donna how well this stuff worked.

Well, ladies, that’s about it. You already knew what a great company you were working for and that quality products were the Mary Kay way. I just wanted to lend my “consumer” experience to amplify the value of these new products to you.

Thanks for listening,  
Bill Scott

Thank you to Lesley Page for sharing her photo: Lesley was sitting across the table at breakfast (no makeup) with her husband and he noticed the difference in her eyes and asked her about it...he then got his camera and took the picture. The photo shows the results of using the TimeWise Targeted Action Line Reducer on her right side for 4 days!
