

I began my Mary Kay Career in September 2012 after attending a success night. That night professional women were invited to promote their local businesses. At the time I owned a Credit Repair company but was in the market for a new job back in the medical field. I am also a Certified Medical Assistant, and a Certified Interior Designer. My husband Derek has been in the Marine Corp for 15 years and we have been married 12, so we move a lot and I end up having to change my fields due to the economy or where we are living at the time. At that success night I was able to hear about the Mary Kay Opportunity which had never been shared with me before. I have used and loved the products for years, however was nervous because I had tried 2 other Direct Sales companies before that was not a success. The one thing that helped me decide was the training Mary Kay had to offer through my Sales Director. I was also concerned because I had just moved to NC from CA and didn't know anyone yet. I was still impressed with how I could work Mary Kay like a full business and decided to sign my Independent Beauty Consultant Agreement that night. I began my own Mary Kay business working like it was a regular job, and by October my commission check from the company was \$2,998.00 and I had earned \$2,000 in sales profit from my sales!!! If that's not enough I also earned the use of my FIRST Career Car a 2012 Chevy Malibu.

In January 2013 I debuted as a Independent Sales Director with 52 team members. A few months later our unit became a Mustang Unit, and in April we earned the Prestigious Pink Cadillac. My largest monthly paycheck was also in April for **\$13,698.00** That year in August, we attended Seminar in Dallas, TX where I earned the #4 spot on stage for the Queens Court of Sharing out of thousands of consultants taking home a 1 carat Diamond Bumble Bee. Since then I completed the company challenges set for first year directors Fabulous 50's, Honors Society and our unit finished #1 on the Dean's List for top production with \$404,000 in products sold, earning me a 17 carat Topaz ring. This is only the beginning as we are currently building the FASTEST National Area in Mary Kay's 50 year history!!! This means I am looking for 20 women to promote into a leadership position of becoming a Mary Kay Independent Sales Director to earn cars, and paychecks that can't be earned anywhere else. Will you be a Sales Director in the Future BRAVE National Area??
