

## Asian Eyes

These eyes are referred to as a single or vanishing eyelid — appearing as a flat surface when closed due to a lack of a natural crease. Your customers can accentuate the exotic beauty of their eyes while adding dimension by emphasizing the lashline and outer corners.

- 1. Highlighter shade:** Apply to brow bone starting at the inner corner of the eye and sweeping out. Apply along lower lashline.
- 2. Midtone shade:** Apply to the entire lid, blending into the highlighter shade.
- 3. Accent shade:** Apply in the crease starting at the outer corner of the eye and finishing two-thirds of the way toward the inner eye. You want to keep the inner eye area lighter and emphasize the crease with a darker shade to help create the illusion of more of an eyelid.
- 4. Eyeliner:** Glide on a thin line from corner to corner of upper lashline. A lighter shade of eyeliner or eye color applied wet can be used on the lower lashes to help the eyes appear more open. Soften with the Eyeliner/Eyebrow Brush, if desired.
- 5. Mascara:** Apply to upper and (if desired) lightly to lower lashes.
